Prevent the Invasion!!!

An army of litterbuggers has been invading the Den lately with a mass of VERY effective weapons—gum wrappers, candy wrappers, and ashes on the floor!!

Anybody for a Lair??

The Den is a wonderful place to get together for a coke and small talk, but who wants to meet in an animal's lair!! That is what the Den will turn in to if some attempt on the part of the users is not made to keep it cleaner.

Opinions of visitors to the college are formed by the way the campus and buildings appear. What kind of an impression will a slovenly Den make?

The opinion that people form of the Den will also reflect upon the students of the college.

Denology Majors—Take Heed

The Denology majors, minors, and other users should make a concentrated effort to be considerate of those who come after them in the Den.

Who wants to wade through a foot of debris on the Den floor? So do your part to help PREVENT THIS INVASION!!!

Drive on, Sweet Chariot

Parking Regulations Will Solve Perennial Problem

Students who own or drive cars should be interested in the campus parking regulations which follow:

There is to be no parking in front of Residence Hall at any time. Students without permits may park in Residence Hall parking lot for ten minutes.

There is no parking at any time in the Union drive, The Library drive, fire lanes, by No Parking signs, or in marked areas.

There is no parking at any time in the Quad lot unless a permit is possessed for that lot.

Registration Is Required

All cars owned or driven by students must be registered with the Business Office. Permits must be obtained if the car is to be parked on campus. Temporary permits are necessary if the student has the car on campus temporarily.

All license numbers for cars not registered are sent to each state license bureau for identification. The owners are subject to fines.

Tickets are being issued daily for violations of these parking regulations. Fines are nominal if paid promptly; if not paid promptly, the fines increase.

Grades Are Withheld

Disregarding a ticket does not resolve the charge. All grades are withheld until all fines are paid.

Any student who wishes to appeal the charges may do so to the Student Court.

ACE To Honor Miss Millikan

Miss Chloe E. Millikan will be recognized at the ACE banquet March 15 for her outstanding work for the college and Horace Mann laboratory school. Sees Much Progress

Miss Millikan came to NW-MSC in September of 1928. Since

Miss Chloe Millikan

then, many improvements have been made at the laboratory school. In 1929, a kindergarten was added, which helped with the enrollment of the whole school. In 1936, a nursery school for three and four year olds was added.

Miss Millikan became the supervisor of the entire elementary school in 1955.

She received her B.S. degree in education from CMSC, and her M.A. from Columbia University, New York. She has done undergraduate work at various other universities.

Besides being the laboratory school supervisor, she has held other positions on campus. She has been on the faculty council for 12 years and has been chairman of the faculty social committee for 15 years.

She has also been the advisor-leader of ACE since it was formed in 1931.

Most Americans did not mind giving up the oil refineries in Cuba. They did not like 'Castroil,' anyway.

PATRONIZE NORTHWEST MISSOURIAN ADVERTISERS

The Stroller is now known as a campus hero!!! He arrived in the room of one of the college freshman girls just in time to grab her feet and keep her from falling out of the window.

"Girls," the Stroller offers his advice, "is it really necessary to hang out of these windows at closing hours???" After all, Sadie Hawkins' Day is over. . .

Plans are being made by the Stroller to go and hear the Ralph Marterie Band. She sure hopes to see a large crowd and urges those of you who appreciate good music not to pass up this big-type opportunity.

Time to Trade??

While browsing around one evening, the Stroller's sensitive ears picked up an interesting story concerning our parking stickers. It seems that a certain car salesman got Frederick Freshman's name, etc., off of his car sticker when he was home last week end, and the fellow has been plaguing poor Freddy ever since. The Stroller can offer two solutions to this perplexing situation:

(1.) An appeal to the FBI to devise a specialized code for our 'green and whites' which would allow the Bearcats to travel incognito.

(2.) An abandonment of the "suitcase student policy."

The Stroller realizes that attempts are being made to change the motto of one of our centralized institutions on campus:

CAVEAT EMPTOR

On the other hand, the Stroller is not purblind to the fact that to purvey pupils pleasingly presents perplexing problems which can neither be purled or purdahed. . .

Veterans Number 85 Under G. I. Program

This year NWMSC has 85 veterans enrolled under PL 550 according to the files of the registrar's office.

Twenty-one Korean conflict veterans were enrolled during the fall semester of 1952. This was the lowest number of registered veterans during the 10 year period from 1950 to 1960.

The reason for this was that most eligible G.I.'s had not received their discharges as of 1952. Those who could take advantage of the G. I. Bill were veterans who served in active duty during the period from June 27, 1950, to January 31, 1955.

The number of veterans enrolled under this government issue gradually increased until it reached its 1956 peak of 292. Since that year it has steadily dropped to the present figure of 85 in the 1960 fall semester.
